

# **The Holy Grail: Restoring Hope**

## *The Project Moses*

### **The World's first modern application of the Ancient Hebrew Healing Protocols**

The catchy slogans such a *Search for the Cure*, or the *Race for the Cure* are widely advertised by humanitarian research and charitable organizations utilizing the best and most advanced technology available to find clues for the rising statistics of cancer and chronic disease. Yet, statistics tell us that *therace against time* was lost by many seeking to be healthy and well with the current model system of health. For those desiring to be well, a realistic detailed system of health offering much needed hope is a most welcome matter. What if there were detailed instructions given to mankind that would allow the human body the optimal opportunity for healing? Would people desire to know the ancient health book of instructions that described that 'when followed, there is a 100% cure rate?' Most people would want to know these health giving secrets of the past.

Enclosures below: Business Plan for the Holy Grail Educational Lifestyle Health Centers

#### **Mission Statements:**

*'The Birthright of All Living Things is Health: We Aim to Provide A Comprehensive Health Restoration Program that is Simple and a Practical Answer to Mankind'*  
& *"Love Is The Desire To Give Everything You Have To Bless The Lives Of Others."*

#### **Our Place in the Market: Rejuvenation and Education**

Our centers offer tranquility and spiritual connection to the Creator in an atmosphere of efficiency and peace. Provisions are for those desiring a first class option of a thirty day retreat, a ten day cleanse or a day spa pampering. We offer a wide range of natural modalities not typically found at other spas, intended to improve the quality of life and restore balance and health in the body. Everyone on the staff, from housekeeping to administration, will embrace the institution's strong commitment to taking good care of its guests and maintaining a standard of excellence. No other Spa in Southern California has catered its services to the guest requiring a strict vegetarian Halal & Kosher standard. All people groups are welcome and treated with equal respect. Education is offered to each guest as part of the Spa experience. The natural setting of our facilities will provide the natural backdrop for fortifying the soul, pampering the body and satisfy the desire for a get away for self improvement physically and mentally. The educational program for the layperson and as well the health professional will satisfy the demand for simple methods that work with the body in harmony with nature. Emphasis is placed on fitness and oxygenation of the body as part of overall wellness, and on healthy organic fresh food and sound nutrition for the basis of the health promoting longevity and wellness diet. Graduates from our program will be equipped with discernment regarding the right choices in holistic health care. Each will be prepared to understand and meet the spiritual and health needs of a community as well as teach and implement a kosher and Halal agriculture and food program. Our research is in the forefront of the market, setting protocols, and publishing the results in peer review journals.

### **The Market: *Our Location***

Our location in Southern California is near large populations of our target consumer market. We are located in North San Diego County, in the Pauma Valley and Palomar Mountain region. This area is internationally famous for its artesian spring mineral waters that have documented healing properties. An hour and a half drive from San Diego, approximately a two hour drive from LAX, easily accessed from Interstate Highway 15. The cities that are within a 4 hour drive by car: Los Angeles, San Diego, Riverside, Redlands, Las Vegas, and Palm Springs. Geographically, our research and pilot project will target the Southern California health conscious consumers with Biblically based spiritual interests in regards to facility and program design. In particular, we will target the specific social and religious groups that seek kosher and Halal service. In addition, a national market will be established through selected print and media coverage. The climate in Valley Center and Pauma Valley is a 'banana belt' providing growing periods year round. This is the target area for our agriculture educational lifestyle program. The climate on Palomar Mountain has the four seasons that most of California does not experience. The beaches of Oceanside are about an hour and a half drive away.

### **The Market Validity: *Nature Laws Vindicated!***

The Original Biblical Healing Foundation demystified by Faithful Covenant will be the means of providing needed education leadership and services. For scientifically sound natural methods of health restoration, we will actively, scientifically investigate the scope of therapies available and make sense out of them for both medical professionals and lay public alike. We will determine fact from fiction using the principles that God ordained in the Holy Scriptures of Clean or Unclean, also known as Halal and Kashrut Law. The development of testing modalities measuring the body electric and biofeedback will verify the simple program of God's Health Therapies, vindicating and demystifying the prejudices against the peoples that adhere faithfully to their religious principles of 'Kosher' or 'Halal' foods. The medical community as well as service providers through our media presentation will be able to intelligently understand the principles and assist the adherents of their faith to continue with peace and prosperity. Doctors and patients will then be able to intelligently collaborate in choosing the therapies that will provide the greatest benefit, be they 'conventional' or 'unconventional.'

### **The Market Identified: *Published Trends of the Consumer***

In 1997 Americans made an estimated 629 million visits for alternative health care services, more than all visits to US primary care physicians. They spent a conservatively estimated \$27 billion out-of-pocket for these alternative therapies, an amount comparable with the out-of-pocket expenditures for all US physician services. These numbers are expected to continue to increase.<sup>(1)</sup> Only 30% of pre-baby boomers had used alternative therapies by age 33, while 70% of post-baby boomers had. And approximately half of these people continued to use alternative therapies.<sup>(2)</sup>

1. Eisenberg, et al. "Trends in Alternative Medicine Use in the United States, 1990-1997: results of a follow-up national survey." JAMA. 1998 November 11; 280(18):1569-75.

2. Kessler, et al. "Long-term Trends in the Use of Complementary and Alternative Medical Therapies in the United States." Annals of Internal Medicine. 2001 Aug 21; 135 (4):2628.

### **The Market Lack: *Education and Scientific Documentation***

It is very evident that Americans are increasingly interested in and are utilizing “natural” and “alternative” options in their healthcare. Unfortunately, US physicians have received little to no training in these subjects, and therefore are not able to provide professional guidance to their patients. To compound the problem, the great majority of patients do not disclose to their physician the alternative therapies they are using and this while most alternative therapies are utilized in conjunction with conventional medical services, not in place of them. American physicians have the medical scientific training that enables them to make appropriate application of health information, but they do not have the knowledge needed in the demand for holistic medicine. The Medical Doctors of Europe and in Japan are the exact opposites, and have complete integration into the practice of all modalities. The index score of countries to have the very best medical care are Japan and Switzerland. We are way down at number 38. What a marked difference between common sense of use of complimentary medicine and nutrition! Because of the statistics that point against the American system of internal medicine, the public has taken things into their own area of choice. The public have become avid consumers of self help courses, modalities of certification in Holistic medicine. Alternative therapy users have knowledge, and in fact are more likely to be college graduates, however, they need to make appropriate decisions. The allopathic practitioner must catch up with this trend and become informed. We welcome their fellowship in the complimentary medical field.

There is a great need for quality, authoritative information on “natural” and “alternative” therapies. Medical schools have recognized this need and have begun teaching their students about “complimentary” and “integrative” therapies. Some schools have developed centers for integrative medicine. Online physician reference services are now including texts and information on these topics. For patients there are an increasing number of books, a plethora of mail and TV advertising, and overwhelming amounts of email spam on food supplementation or alternative medicine. The public consumer is increasingly confused with the barrage of misinformation and sale tactics. Doctors of Allopathic medicine still lack the knowledge and the market must be met.

### **The Spa Market: *Trends and Facts***

The health spa industry is the fastest growing segment of the hospitality industry. Spa industry revenues surged 152% between 1997 and 1999, and revenues per establishment increased by 65% for the same period. This trend is both long term and stable evidenced by an annual growth rate in the number of spas exceeding 20% during the last five years driven by the increasing number of aging and health conscience baby boomers.

Patient recovery from chronic curable or incurable diseases has been noted by researchers as the ‘hope’ factor. Hope is the very oxygen that we breathe. *“Believing in an afterlife can give people meaning and purpose and reduce the feelings of being alone in our world” says Harold G. Koenig at Duke University Medical Center in Durham, N.C., “especially as people get older. Religious belief can be a very powerful way of coping with adversity.”* Religion also brings social interaction and support. But Koenig believes it is not just about receiving. *“Studies have shown that people who provide support to others are better off themselves. They even live longer.”* This humanitarian

action, researchers agree, makes religious involvement a source of greater satisfaction. Additionally, several studies have found a link between happiness and altruistic behavior or charity” (3).

Our program founded on universally applied principles of the Laws of the Creator as written down by the Prophet Moses 3339 years ago has yet to be researched in modern scientific analysis. Our purpose is to meet the spiritual needs of the patients of all faiths in a non-judgmental and non-denominational approach. Ours is a simple program yet naturally aggressive, and is staffed by highly qualified like minded licensed Medical Professionals.

3. Holmes, et al. “Ten Keys to True Happiness” Readers Digest, March 2004. 96101.

### **The Agriculture Market: *Significantly Injurious or Beneficial?***

The more scientists learn of the toxicity of synthetic pesticides, fungicides, and herbicides, the more we learn of the damage to the earth environment. The problem in toxic residues buildup in humans is the neurotoxicity and pollution of the body from these foreign and unnatural substances. The devitalization of earths soils have led to a breakdown and degeneration of all life forms. Plant diseases are found only when crops are improperly grown and that disease was the marker of malnourished plants. Insects also have the innate ability to detect mineral imbalances even at a subtle level - in plants and selectively target only those plants imbalanced.”<sup>(4)</sup> The shelves at the grocery store often have deficient or ‘sick’ produce marketed to the consumer that is unaware of the dangers within their shopping cart.

In agriculture science, the farmer and rancher are very much in tune to any deficiencies that show up on the crops or within the animals raised for market. When deficiencies are shown, the minerals are immediately added to the feed lot and the crops are re-mineralized according to the report given from the soil analysis submitted for examination. With this study, it was noticed that the ‘organic’ foods consistently did test higher than all regularly grown produce in the market. However, one pattern kept on repeating was the presence of parasites especially protozoa and tapeworms that would be from cattle, pig, or other animals. The suspect was from manure applied. What the laws of God indicate were that all discharges from mankind and as well, animals should be buried and not part of food consumption. What are scientists reporting? “...it has long been known that heavy manuring of the soil results in the plants grown thereon being subject to parasitic infestation because of their lack of health.” In addition, the “fertilizers derived from stable manure or of animal origin (as well as chemicals), were significantly injurious to the health of soil and plants...and their widespread use has served to create conditions of disease and degeneration consecutively in soil, plant, animal and human life. In addition, this same author maintained that *Large dressings of dung were the main cause of ‘gungoid’ infections of plants... and bad eye sight, bad teeth, and kindred troubles in human beings. As for chemical fertilizers, he found that they often deplete the soil of its fertility and induce acidity.*”<sup>(4)</sup> The cure for the problem has been consistently shown to be proper and knowledgeable re-mineralization with rock dust or other naturally occurring mineral sources.

Properly applied kosher law for plants and growing conditions provides the enzymes, minerals, vitamins, and nutrients of regeneration of man and animal kingdom

alike. The laws as written by Moses were specific as to consuming fruit from trees after the fourth year, consuming vegetables and fruit that were free from disease and that were properly prepared as fresh. Our research agriculture crops grown with melodious music within our revolutionary donated 'Electrified Atmosphere' under a manure free and chemical free environment will support our nutrition medicine program according to the Natural Laws given by God.

4 "Health For All: Fulfilling the Vision of Wholeness For Humanity into the 21st Century" By Dr. Raymond Obomsawin, PhD., page 25, 29.

### **The Holistic Education Market: *Trends and Facts***

In the specialty professions of medicine, nursing, pharmaceutical, and health services, professionals in every division have been taking notice of the trend towards 'natural means.' Numerous religious groups from the Far East added their spiritual slant to the 'holistic' course offerings and many health professionals were unsatisfied with the course materials that conflicted with their own spiritual values. A professional course attended by Dr. Crawford in 2002 offered herbal misinformation as facts. The audience interest in the subject however was high and there was only standing room for possibly over 500 health professionals from Pharmacists to Registered Nurses that were seeking information on alternative means. The avid note taking and hands raised as to the latest information as to what specific herbs would do for our own personal lives as well as for our profession was a welcome trend. People within the health industry are seeking understanding of all herbal and natural remedies.

Every single item of advertising that is geared towards the nursing professional in the state of California for several years has had a plethora of advertising of course CEU's (continuing education units) in understanding the herbs that their patients may possibly be taking. Health professionals do indeed need to understand the potential drug risks from these interactions with a body that is cleansing properly while ingesting herbals in the diet. Medical professionals demanded a publication of the herbals that have been researched to understand the direct action of the herbs, the potential side effects while cleansing, and to learn of the shelf life in a publication similar to the Drug formularies. This first edition of **PDR for Herbal Medicines** was published in 1998 and was immediately in demand. This was advertised as *the information standard for complementary medicine.* We expect to have popular demand for our gifted and knowledgeable professors of natural medicine lecture series. The certification courses that we will offer are comprehensive and will satisfy the health professional that is looking for a *Hebrew and Interfaith based instruction.* Our schools will cover the standard comprehensive study of *Traditional Naturopathic Medicine* or *Nature Doctor Course.* Our students will have the connections for advanced practice experience under the umbrella of our research pilot program. We are intending to enlighten the entire field of medicine with our research and have recruited the talented men and women of advanced education to carry it out. "As waves of baby boomers hit 60, their medical needs are sure to increase. As a result, the industry expects to need at least 1.7 million workers by 2010. And the supply of qualified workers is unlikely to meet that demand," says Graham Toft, senior fellow at the Hudson Institute.<sup>5</sup> Our students and graduates whether taking courses for personal enrichment or to enter the field professionally will directly impact the demand. The baby boomer generation purchase of HMO providers, which are very interested in maintaining their clients health, have a unique incentive to

promote this viable and successful project. Our team has actively searched out companies that would be interested in promoting this type of project. All students of natural medicine modalities have an awareness of the trends of the market and are preparing themselves accordingly.

5. Readers Digest, April 2004, page 118.

### **The Identified Market Demand: *Solved!***

God has given the all the Children of Abraham, all people and mankind specific instructions for health renewal, regeneration and preservation and He never makes a mistake. The Covenants (agreements) of the Creator, the God of all the children of Abraham, are valid, accurate, convicting, life changing, and are excellent standards for all mankind. The Kashrut (Kosher/Halal) Hebrew laws are Heaven's appointed means to secure the health blessings for all people. We intend to reproduce the 'law of the leper' healing program using the instructions of the Holy Torah. We will document our findings that are already consistent and predictable within established and recognized frameworks for peer review. The medical community will welcome this project.

Our centers are unique providing Halal/Kosher standards for observant health conscious people groups and in ground breaking testing and application of the healing principles outlined in the Holy Scriptures. The Halal/Kosher laws of health, family and agriculture, outlined by Moses in the Torah over 3300 years ago, are being tested and proven scientifically. **The unchanging laws of nature, when followed as Scripture directs, produce superior health, mental clarity and well being in humans and increases the nutritional value and abundance in agriculture.**

**Hebrews•Today** joint with **Faithful Covenant's Health Restoration Program** to establish an Interfaith Kosher & Halal Health Center project based on the original healing for **a pilot project to demystify the Laws of Health** as recorded in the books of Moses or the Holy Scriptures. The Holy Scriptures have a long and deep heritage of teaching its adherents the principles of mind and body connection. These lifestyle principles have been adhered to by the Ultra orthodox and orthodox Jewish communities and as well select Christian groups such as the Latter-day Saints and Seventh-day Adventists. Lifestyle principles based upon the '8 Natural Laws' have been touted by many religious groups and recently become more openly accepted in the medical community as valid and correct. Over one hundred years ago, Dr. John Harvey Kellogg, MD vigorously pursued the development of a broad spectrum of therapies guided by core principles, and developed the world renowned 'Battle Creek Sanitarium,' an institution that was sought out by Presidents, Olympic athletes, and many of the world's rich and famous. The vigorous combination of good science and the appropriate guiding principles is powerful and can accomplish much good. The final and bottom line is a comprehensive restoration program that is simple, reproducible and a practical answer to mankind.

### **The Marketing Solution: *Developing Educational Curriculum and Services***

We are currently in the process of recruitment of highly qualified, prayerful and dedicated health professionals. At this time, we have talented medical doctors for peer review research documentation. We have applicants and expressed interest from additional talented individuals to train and instruct in our research protocols to carry out

research within their own practice or to join our team on site for our study. Our vision is to develop our education protocol and format for the Health Seminars we will be holding for public education. While reconstruction commences on the real estate for our full Spa programs, we will focus on development of our research protocol for peer review submission. We plan that this should be a period of 90 days to prepare for the grand opening.

We have been asked if the laws of the Holy Scripture apply to all mankind. So we look for answers as to: **Why** we obey our God in His specified physical and spiritual laws. From our initial studies we have found spectacular benefits for those that follow the simple laws of God. What is needed is more knowledge and understanding of the gift that God's Laws are for mankind. Mankind lacks having a comprehensive positive outlook towards what the Commandments, statutes and judgments are and of their practical application. This practical application of the Law is our blessing and freedom, however, the prejudices and disregard of the ancient writings of Moses has robbed every individual of its birthright heritage.

Our goal is to continue scientific verification and testing through the application of healing principles outlined in the Holy Scriptures. We will be unique by having live Harp music played by an accomplished concert harpist and as well other talented musicians. The guests with the thirty day program will be able to participate in the *Bell Choir* program. Singing will be encouraged for all guests participating in our programs. Our focus will be implementing our findings and teaching others to duplicate our efforts. This project is California based with Los Angeles and San Diego County as the primary target areas. However, recognition of our Halal/Kosher, Biblically based Natural Healing program is expected to draw people from around the world to our Health Spa Retreat and our educational program. Our media training program will offer videos and CD's for the public interest and consumer demand regarding this ground breaking research. The docu dramatization feature film will introduce many to our training programs that will detail the research in educational format. At this time, we have never before seen film footage, photographs, ancient artifacts certified from the time of the Exodus to be filmed and produced by a judge of the Academy of arts, sciences and television and two time Grammy nominee Film Producer/Director. Joining us on the film project and museum project are world renowned archeological artist (very familiar with the very locations to be recreated in the film), Hebrew singers and authentic instrumentation for the musical score for the Docu-drama. As this is a pilot project, we appeal for outside grants and endowment funding to assist us in this groundbreaking research and film project.

Our program is implemented in a residential Spa setting, as well as through mobile medical RV clinics. By these means we intend to take our Natural Healing program into the community.

### **The Grants Sought: *Our Funding Sources***

Brief Summary of Request and Proposed Use of Funds: Faithful Covenant is a self-supporting Natural healing, Education and research ministry. We are concerned about the declining health and wellness of people and the ineffectiveness of current medical practices in restoring long term health and wellness to its patients. We intend to

implement a Biblically based Natural Healing (Halal/Kosher) program which has proven effective in bringing Hope and the opportunity for health, healing and blessing, in mind, body and spirit. Our program includes offering a Halal/Kosher, 30 day and 10 day residential cleanse and healing life style program, implementing natural healing techniques and the eight (8) laws of health. The residential program is located in North San Diego County and Orange County.

### **The Ultimate Peace Project: *Why Revisit Exodus?***

*Tikkun Olam* - To Heal the World, A revolutionary study of **lost ancient wisdom** in Biblical medicine restoring understanding with our evidence based natural therapies: Leading the way in understanding with education, research, and practice providing hope and compassionate spiritual counseling and offering a proven pattern of whole body restoration at affordable prices

### **Holy Grail Research Background: ‘Circulation of the Electric Currents of the Body’**

Our pilot research has focused on the correlation between what the ancient writings of Moses, the author of the first five books of the Holy Scriptures, refer to as ‘*clean and unclean*’ and the vitality or electrical field of the human body. We are returning to the Hebraic understanding: *Tikkun Olam* - To Heal the World.’ To our knowledge, we are the first to bring this relationship into the research arena for inspection and illumination with scientific model analysis within modern medicine peer review. The total misunderstandings, from the plethora of information that Americans have had along with most others in the world, would be clarified regarding the health laws and their practical application today with our scientific study. As sound scientific research and documentation is made known and public knowledge is increased as to the findings it will dramatically have positive impact to remove prejudices and unnecessary comments towards those observant of certain dietary practices, restrictions and regulations amongst select people groups.

This research took a new turn in April of 2003 during a shopping trip for groceries at the local supermarket. Careful selection of organic, fresh and beautiful produce, that had high energy levels measured, when taken to the cash register for check out, was depleted in their energy fields. While in line, a customer came up with a shopping cart laden with pork chops, shrimp and blood laden non kosher beef or unclean items. The items were tossed on to the rolling checkout table and the pork, even in plastic container, landed a few inches over onto the organic wholesome produce. This was noticed but rationalized was that things did not truly ‘touch’ the produce because of the plastic wraps. The electrical energy was retested immediately. It showed that the entire produce purchase had plummeted to zero vital force and it had been permanently defiled. It was still unchanged even with prayer. With much chagrin, the produce was taken back for full refund. The question was raised as to why had the energy discharged? What would make the electrical field become the frequency of death or less than 5.4 kHz?

This research project, undertaken for the past sixteen months, has been at great personal expense. Four months into the research Dr. Crawford left her secure nursing and nutritional counseling career and devoted her self full time to the project research and

documentation. Joy Klein was also convinced of the magnitude of the results of the research and left her career and home to join efforts with Dr. Crawford. Both invested all of their resources (and the resources of willing family) to continue the project. Dr. Crawford's personal exposure to Israel and the Middle East living for many years out of the past two decades has added in depth understanding to this research. She is able to read the original documents in the native tongue of the Hebrew writers. The months spent in study and documentation, prepared them for the scope of this project. The results are six desk-top publications, including *"The Circulation of Electric Currents of the Body"*, and hours of ground breaking research. This unique and totally revolutionary study shared by Dr. Crawford, has opened the eyes of readers across the English speaking world via the Worldwide Web, and has attracted the excited attention of other researchers and professionals. Up to this point, Kosher law has been taught but no one has verified and defended it in a scientific model analysis. This unique and ground breaking approach to health and healing has unlocked the hidden secrets of the Bible in restoring health to the body.

During the year 2003, Dr. Heidi Crawford, and associate Ms. Joy Klein, had been studying and demystifying the ancient health laws in blessings and curses. This study expanded to include the knowledge gained from an ancient vessel purchased by Dr. Crawford during her stay in the Middle East. Searching for the meaning, purpose and dating of this anointed Hebrew Vessel led a path across the United States, connecting with scholars, archeologists, and explorers. With the eventual certified scientific and scholarly dating of the ancient Levitical Purification vessel, from the time of Moses and the Exodus, people were earnestly urging them that they share these findings with the world. A private foundation was quickly formed to hold legal ownership and stewardship of the ancient vessel after the final verification was done for this truly *priceless vessel*.

With the reality of the commission to do a special work as *'Peacemakers'*, we are continuing to pray that our Heavenly Father direct our paths. The *Ultimate Peace project* includes a major film project that will reveal artifacts and information that the world is waiting for. Our success rests on God's gift of enthusiasm and perseverance to share this information; that has been purposely shoved aside and ignored but the world must hear. We now have the applicants with the experience and knowledge to carry out the necessary research and as well the entire film documentary. With the success of the past year, we are confident of continued direction of the GOD of Creation and History.

Research about Earthen Vessels use within the Tabernacle services revealed its use for the people with diseases and illnesses. This was confirmed with other Jewish sources on traditions and teachings. We have come away with a new understanding and respect for these people that have held onto ancient knowledge even at great personal cost. The Biblical account tells of the Israelites and mixed multitudes, the descendants of Abraham, being freed from 420 years of slavery in Egypt. They were sick, victimized and filled with bad attitudes. God gave instructions to Moses, that should they chose to follow, they would be free of all the diseases of Egypt, they would be respected as a people and nation, their crops and live stock would be abundant and they would have great wealth. They were to teach when something is 'clean' and 'unclean': this was the law of leprosy (diseases without known cures). God promises to bless all people through the

use of His Health Laws. However, obviously with so many 'spiritual' people sick, there was something missing here in the equation. The law of 'clean and unclean' became clear to us when we discovered *patterns in the body electric field.*

In the years of the Exodus wilderness experience, nearly 3300 years ago, the instructions for the use of the earthen vessel for healing and also for dealing with the serious charge of adultery of the wife was given to the people. Wives that were suspected of adultery were to be brought before the priest. The instructions were to take Holy Water in the earthen vessel and 'dust' that was on the floor of the Tabernacle. It would be absolutely impossible for the Tabernacle to be dirty. According to the original Hebrew word Strong's #6083; this is translated as meaning ground clay or charcoal ashes. The record of Numbers 6:11-31 was that this was the Law of those that had been unclean (vs. 19) or 'defiled' (vs. 29). In Jewish traditions, the Jewish Prayer book or *Siddur* has an everyday prayer affirming the marriage vows of the individual and as well the corporate body of believers to their Husband, God Almighty. God has also affirmed that He is the husband to every human being (Isaiah 54:5). How many have broken their marriage vows to God! The remedy was given for cleansing using Holy Water with ground clay or charcoal taken internally. Today in naturopathic therapy, the same remedy is used routinely for successful detoxification or removal of poisons and internal gastro-intestinal upsets in the body. For all people that have been 'unfaithful' in adhering to the Natural laws of our Husband, our Creator God, there is a successful remedy using simple clay and charcoal. That is good news to be issued the declaration of being clean!

Understanding of the true underlying cause of the disease has been our focus. It has been said: *"Let the Physicians teach the people that restorative power is not in the use of drugs but in nature. Disease is an effort of nature to free the system from conditions that result from a violation of the Nature laws of health: Pure air, Sunlight, Abstemiousness/ Temperance, Rest, Exercise, Proper Diet, Use of Water, and Trust in Divine Power."*- The Ministry of Healing, Page 127. Obedience in each of these areas has brought reversal of many conditions.

The '*herbs of the field*' that the LORD has provided, contain the antidote for diseases. Health benefits or blessings provided by God in using these simple plants and by using the Eight laws of Nature; we are cooperating with Him in healing. In the original Hebrew language, the book of Numbers, relates a story of Miriam, the older sister of Moses. The English versions inadequately translate the original meaning of these verses. Miriam had been stricken with *leprosy*' after critical racial words concerning the wife of Moses and of the leadership that had been given to Moses. Moses is recorded as crying out to the Lord to "Heal her NOW, O God, I plead with you."- Numbers 12:13. The record describes a very harsh response in some translations but in the original language, it also gives hope. The words of the Lord are given in this direct translation: *"If her Father had herbed grass in her face, should she be hurt in her wound seven days? Let her be shut out from the camp seven days, and after that let her be received in again."*- Numbers 12:14. Miriam's unfortunate case of illness from her iniquities (lethal attitudes of racism, jealousy and a critical judgmental spirit) brought her skin into hardship. As a result of this judgment, Miriam became the world's most famous essential oil aromalogist. Her work is still used around the world. The Creator of Universe gave

her the herbal recipe for her therapy. She had to *take time out* for 7 days, change her attitude and focus on getting well.

The instructions for blessing the people were given in the *Priestly Blessing*.  
“*The Lord spoke these instructions to Moses saying, Speak unto Aaron and unto his sons saying, on this wise you shall bless the children of Israel, saying unto them: The Lord bless you, and keep you: The Lord make His face shine upon you, and be gracious unto you: The Lord lift up His countenance upon you, and give you peace. And they shall put my name upon the children of Israel; and I will bless them.*”- Numbers 6:22-27. When we tested this particular blessing on critically ill patients, combined with the *Crying out* prayer of Moses above to ‘*Heal her/him now, O God, I plead with you*’ there was a surge in numbers in total body frequency and marked color changes. One person was to all appearance nearing death. The family and friends had gathered around and witnessed the pallor and lack of response. The individual had developed difficulty of swallowing, was incontinent of the bladder, and was unable to do any body functions on reflex. The individual was end stage *hospice* functioning. After the group agreeing to loudly *cry out*, asking for the blessings as above, this person was able to within 48 hours pack up and ambulate (with some assistance) to the family car and be driven home. This individual sought out further appropriate medical care and refused to stay in hospice category. This was witnessed by a crowd of 11 people, we were very encouraged. These instructions are very specific and are powerful in application.

During the Exodus period, the people were fed Manna (Exodus 16:35). This manna was placed in the Holy Vessel of Aaron and then put before the (Ark of the) Testimony of God to be kept for future generations as a witness. (Exodus 16:33). In our search for the evidence of the Exodus and the ancient vessel, we were led to those that actually had the ancient Manna Grinding Stones from Arabia. These stones were hand held and easy to transport during their years of the wilderness experience. The same certified Lab that tested and verified our ancient Purification Vessel had tested and certified the manna stones. What was the apparent substance that the Holy Scriptures calls Manna? It was found that the residue on these stones was resin oil that had the Gas chromatography chemistry pattern certified to be consistent to the Castor bean species. The forty year experience had the people on a substance similar to Castor bean. This powerful oil for us today is very cleansing and is used in every successful naturopathic program for detoxification of the body through the skin

Different illnesses manifest in the body when the cell energy drops. Every living cell is a power generator activated by the sodium/potassium pump. Really Potassium is on the inside of the cell and sodium on the outside. The action of keeping that balance creates electricity. We know the heart beats by electric impulse; this is why pacemakers are given to some patients, EKG's are hooked up to monitor the heart or paddles are used to revive a coded patient in ER. When cells get enough oxygen, the mineral sodium potassium pumps in the cells of the eyes, brain, heart, muscles, pancreas, and white blood cells are able to generate the Electric Energy that gives each of these organs the power to work efficiently. We have been trained in the life saving discovery of Dr. Samuele West's ‘Speed Healing’ program certifying the practitioners with his educational program. The formula: *oxygen=pumps=electricity=power*, will keep one's body free

from pain and disease the entire lifetime. In addition, Dr. Steve Darden's protocols *You Don't Have To Die* using Electrified Oxygen for water therapy has enhanced the effects of other programs.

When sharing the first draft of "*Circulation of Electric Currents of the Body*," the readers reported their own application to the findings. There were **demonstrated positive changes** in the physiological presentation of their patients with anointing as the Holy Scripture describes in Leviticus 14:14-19. Adult patients that were invalid and had not been to a covenant meal were given the Unleavened Bread and Grape Juice after the mixed fashion of Proverbs 9, the Melchizedek Blessing of Abraham and the Messiah's Meal as recorded as a 'Cup of Blessing.' Reports came back that digestion was dramatically improving, skin color was pink and best of all and blood sugars were stable after years of being elevated. We were determined to test these principles with other cases and proceeded to study everything that we could find as to what the Holy Scriptures records for healing that are shrouded in mystery as **'lost ancient wisdom.'**

Before beginning our research, we studied research done by Dr. Hulda Clark, PhD, and Dr. James Overman, ND. Our personal Hebrew heritage and background gave us a knowledge base to integrate their studies into what is now our current research. The early parasite identification protocols developed by Dr. H. Clark, PhD, as published in "*The Cure for all Cancers*" and other similar books using the syncrometer challenged all previously preconceived ideas in the medical field. Dr. J. Overman, ND developed comparisons total body frequency and worst organ and worst organ tissue frequencies. Dr. Overman also documented the complete frequencies of animals and fish that would be considered 'clean' and those that would be considered *'unclean.'* These pilot studies inspired us to develop further comparisons to validate the benefits of our Hala/Kosher, Biblically based, Natural Healing program. The topic of clean and unclean according to electrical current frequency numbers demonstrated predictable healing patterns of the body in sabbatical rhythms. The requirements of clothing, sanitation, anointing and Halal/Kosher foods prepared and grown according to the laws of Moses will be further tested to confirm our preliminary testing. The emotions, as pertains to the mind/body connection to disease, as documented in Holy Scriptures, will be further substantiated to aid in the release of emotional blockages. Full documentation and peer review in the book, "*Circulation of Electric Currents of the Body*" in mind/body connection is underway at this time.

Our research has taken the documented and recognized fact of the *'Body Electric'* to a deeper and more profound level of understanding. We have documented what foods, activities and sound environments raise the body electrical frequency to a higher, health promoting level. Our study showed a raised electrical frequency with harp music, prayer and Bible reading. **Vital energy drained with touching and as well consuming all 'unclean meats,' poisonous herbs, devitalized foods and by saying words that were less than health producing.** Restoration of frequency was rapid when returning to the spiritual foundations Conquering disease suddenly became understood in a totally different pattern of 'true peace restored.' The human body is an electrical being and our thought waves are electrical as proven by science today in common knowledge.

The author of The Golden Seven Plus One states: “*We must not become a silent partner and let our destroyers continue to slay people by keeping them in darkness....Our destroyers can only work in darkness. When they are exposed, they lose their power.*”- Dr. Samuele West. In this study of the body electric field and the tremendous energy radiating from the body that is fully polarized, we looked for what the Holy Bible had to say about this **energy field**. We were drawn to: “*And they shall teach my people the difference between the Holy and the profane, and cause them to discern between the unclean and the clean.*” - Ezekiel 44:23. The forbidden practices of the pagans or unbelieving people were considered to be activities that would cause one to become ‘unclean.’ One could draw a conclusion that as the command is given: *Thou shalt be perfect with the Lord thy God*” (Deuteronomy 18:13) that this is the standard of behavior to reflect ‘*clean status or high electrical field radiance.*’ This ‘clean’ vital force and frequency would surge in count to the trillions when we aimed to reflect *the mind of Messiah, and have the heart of love that the Messiah had for us, and have a circumcised heart to say hear, think and do the right path of godliness.*’ It became clear to us what the Messiah meant when He declared: ‘*Now you are ‘clean’ through the word which I have spoken unto you.*”- John 15:3. By spending time with the Chief physician and covenanting with Him, our status would be ‘clean’ and have ‘more radiance.’

What would cause the total frequency numbers to plummet, darken or diminish? Iniquities or attitudes that are not healthy also profane the Holy Standard. The Levitical law describes “*And they that are left of you shall pine away in their iniquity in your enemies lands: and also in the iniquities of their fathers shall they pine away with them...If they shall confess their iniquity, and the iniquity of their fathers, with their trespass which they trespassed against me, and that also they have walked contrary unto me...if their uncircumcised hearts be humbled, and they then accept of the punishment of their iniquity: Then I will remember my covenant with Jacob, and also my covenant with Isaac, and also my covenant with Abraham will I remember; and I will remember the land....I will not cast them away...for I am the Lord their God. But I will for their sakes remember the covenant of their ancestors.*”-Leviticus 26:39-42, 44, 45. Patterns of attitudes that we have inherited require confession or repentance for healing of the covenant relationship. We discovered that when this was done, the electrical field was significantly empowered. Healing in relationships and as well emotions were rapidly restored.

- **Juice and Water Fasting**

Juice and also water fasting is commonly used world wide to regenerate the body and bring healing. Genuine fasting has the theme of repentance and full knowledge of what one is doing according to the writings of the prophet Isaiah. *Is it such a fast that I have chosen? a day for a man to afflict his soul?... Is not this the fast that I have chosen? to loose the bands of wickedness, to undo the heavy burdens, and to let the oppressed go free, and that you break every yoke?...Then shall thy light break forth as the morning, and thine health shall spring forth speedily: and thy righteousness shall go before thee; the glory of the Lord shall be thy rearward (force or power).*”- Isaiah 58: 5-6, 8. The prophet Daniel wrote: “*And when He shall have accomplished to scatter (spread) the power of the Holy People, all these things shall be finished.*”-Daniel 12:7b. When Moses spoke to the Lord, it is described that his “*face shone*” (Exodus 34:29) when he

was carrying down the Ten Commandments from the mount. The preparations of these two tablets of testimony, written by the finger of God, were forty days of fasting and communion, a special time for Moses and the Lord God Almighty. *‘And he was there with the Lord forty days and forty nights; he did neither eat bread, nor drink water.’* - Exodus 34:28. The record describes that Moses’ face shone so significantly that he was required to ‘*veil*’ his face when with the people (vs. 33). The keys we find here to renewed radiant health are: juice and water fasting, caring for others less fortunate and being in the presence of God. It has been noted that the frequencies remain high when time is spent in devotional prayer at morning, noon and night.

- **Fresh Organic Food**

Fresh organic foods were prepared and tested with high energy. Old herbal seasoning was added for flavor and the numbers plummeted. We learned the electrical field of foods could be discharged to low numbers with poor quality additives that had been processed perhaps years ago. The instructions given to Moses in the period of the Exodus, was to prepare the foods and consume them within the first day, permission was to eat the left-over the second day, but one was forbidden to consume the processed food by the third day. We found that the vital force was lost with processing and the time window was just as in ancient times. The vital force numbers depleted in spite of refrigeration. Obviously, many people are not getting well because the food they are eating is not life giving. This knowledge is too important to ignore.

With our intensive study of the laws of health in Hebrew understanding, we learned of how *“Jewish Law strictly enjoins man to preserve and take care of his health...man must do anything in his power to preserve his life, and not commit any act which might be injurious to his physical well being.”* - *The International Jewish Encyclopedia*. The entire Holy Scriptures details instructions for every aspect of life. Why has modern man ignored these instructions? Most have been told that these ‘laws, statutes, and judgments’ are to be only for one people group. However, with our study, we must ask why someone would try to rob us of our heritage birthright! The simple instructions bring freedom in health, finances, and relationships. The Holy Scriptures is the handbook for optimal life. There has been a mystery enshrouded about the instructions and we intend to explain the good news of the findings.

- **Clean and Unclean**

The emphatic words of the Prophet Moses were to exhort Israel to teach the differences between ‘*clean and unclean*’ as the **‘Law of Leprosy.’** (Leviticus 14:57). We learned that the word for Leprosy does not mean in our English translations the same in the original Hebrew. The word in the original is **Diseases of the Egyptians**’ or the **chronic, incurable diseases of the idolatrous pagan, rebellious, unbelieving, disobedient, ignorant and non-covenanting peoples!** In the books of the prophet Moses, instructions for those with the diseases of the ‘*Leper*’ were that they wear certain clothing, anoint specific areas of the body, eat certain foods, and have specific locations for getting well. We intend to replicate the instructions and as our initial test research has demonstrated, there are spectacular positive results from following the instructions of the Holy Scripture. The message from the prophet Ezekiel *“And they shall teach my people the difference between the Holy and the profane, and cause them to discern between the*

*unclean and the clean.*”- Ezekiel 44:23. This command is given that the knowledgeable practitioner might be able to compassionately share the good news of the freedom that the Holy Scriptures provides. The good news is that the body powerfully responds when in obedience to the commands and we intend in this pilot research project to document the entire path of obedience and scientifically share this with the entire world.

In understanding the body electric it is important to know that every living cell is a generator of energy. The balancing of the sodium and potassium levels inside and outside the cell wall creates electric current. Organs and systems of the body are made up of millions of cells. The health of each organ or system can be analyzed by the electrical frequency, or the level of vitality it registers. The higher the frequency, the healthier the body. The body as a whole unit also registers a level of vitality. Death can occur when the vitality of the organ drops below 5.4 kHz, even though the rest of the organs may register a healthy level of vitality. (This fact allows for organ transplantation to occur in a short duration of time after the demise of the donor.)

- **Forgiveness**

Parts of our original study were to document and map the effect of the emotions on the body organs. We have consistently found the emotions to have specific organs that are blessed or imperiled by being present. We have documented consistent methods of freeing the various organs from the effects of the negative emotions. Patterns have been established that bring the organ and then the body as a whole into a higher level of vitality. The organs impacted by the thought process that creates negative emotions have been shown to be revived to a healthy level of vitality by **consciously choosing to forgive**. Thoughts and words have a powerful chemical effect on the body. Throughout the Holy Scriptures we have found references to these phenomena. One quote familiar to many is: *“A merry heart does good like a medicine”* and *“As a person thinks in his heart (mind) so is he.”*

- **Prayer**

We have tested the body response to reading various scripture passages such as the Shema: *“Hear O Israel, the Lord [Yáhuah] our God [Eloheinu] is One Echad: And thou shalt love the Lord [Yáhuah] thy God with all thine heart, and with all thy soul, and with all thy might.”* *“And love thy neighbor as thyself,”*- (Deuteronomy 6: 4-5 & Leviticus 19:18b). The body frequency raises dramatically with this reading. The prayer of every Jewish observant believer for thousands of years has been the *‘Amidah’* or the *‘Shemoneh Esrah.’* The positive effect of this prayer on the body was profound. The vital force numbers of the body was exponential to infinity as far as we could tell and the electrical field was several feet off the body. The traditions of the biblical Hebrew people as examples by Daniel and other famous Hebrews of the Holy Scriptures had this prayer recited at morning, at noon, and at dusk. These were the times that we discovered were most optimal to ‘jumps start our frequency to maintain healing rhythms of the body. The instructions of Moses included telling a transgressor of the law who came in contact with an unclean object, that they would remain unclean until the *éven.*’ In our study of the culture and practices, the **‘even’ was the changing of the light**. This corresponded with the morning and evening sacrifice, reading of the Covenants of God and prayer time. We determined that the body frequency would remain in a lowered state until the person

renewed their correct relationship with their Creator. This was the time of day the Shéma and the Ten Commandments were recited. We implemented covenant renewal prayers as the pattern of Daniel (Daniel 6:10) of three times a day. We also implemented the reading of the Covenant of Psalms 91 once a day. Our testing showed the body energy surged to a very high or clean status after reciting these.

- **Shabbatical Cycles**

Naturopathic or Herbal medicine teaches of *'Sabbatical Cycles'* of healing. A pattern of healing is every 7 seconds, every 7 minutes, every 7 hours, every 7 days, every 7 months and every 7 years. Most herbalists have taught that 6 days of using an herbal remedy must be followed with a single day of rest. With this same recommendation, it is known among herbalists that the herbal remedies will work far more effectively after this 24 hour period of rest. This principle prompted our study to explore this further. When the ancient traditions of *'lighting of the Shabbat lights'* were performed earlier in our study, the wonderful discovery of the truth of the 'blessedness of greeting the Sabbath' was discovered. The total body frequency surged to numbers that we could not count. Observance as to how the Holy Scriptures instructs, from Sundown on Friday evening and ending at sundown on Saturday is the Biblical Sabbath. During those hours simply relaxing, rejoicing and enjoying the time with the Almighty God in worship and in fellowship with others, the numbers were maintained. These profound and continuous numbers maintained during the Sabbath hours honoring the Creator did not repeat in this magnitude on any other day. The circulation of electrical currents of the human body had to be revived on the regular work days of Sunday through Friday. Natural Law has imprints of the Creator's instructions even if we are unaware of this Law. Those opposed to the observance of this time are ignorant as in reality this robs us of our heritage to enjoy a special time set apart by our Creator, and bring revitalization to our body through this practice.

- **Emotional Patterns**

Many books have been written regarding the emotions of the body with helpful suggestions and pointing towards counselors. Best sellers are suggesting various remedies. What really is the truth? In our research, we tested what entertaining negative thoughts, such as anger and hostility, detrimentally do to the body. These brought the individual to the frequency of 5.4 kHz or 'death', or as our research showed, an 'unclean status.' We noticed consistency in particular patterns in our documentation of the energy drain on certain organs of the body by various emotions and attitudes. For example, every case regarding hypothyroidism had the same repeating emotions and triggers leading to this condition.

In mapping the emotional patterns, loving attitudes and thoughts raised the overall body organ energy. Specific positive emotions consistently tested for specific organs. Negative, destructive, angry thoughts drained the body energy and imperiled the function of the organs they were related to. If these remain for extended time the organ becomes sick and diseased. The Biblical correlation was for 'clean' to be the high, positive healthy energy and 'unclean status' was the opposite, ending in disease and death. The laws of Moses said to teach what is clean and what is unclean or in our vocabulary, what brings healing to the body and what brings disease.

The electrical field of the body responds instantly to the thought process. When the connection is made with the Creator God of the Holy Scripture, the body responds in a dramatically raised vitality level. When the connection is broken, the vitality level drops dramatically. The Holy Scriptures gives the ultimate formula for these patterns of ‘iniquity’ or attitudes that we have inherited. We found consistent freedom and rapid healing with following the instructions of release. We believe we now have the key that unlocks the potential for radiant health and are continuing to map the effect of both positive and negative emotions on the organs.

- **Anointing**

The Law of Leprosy according to the record of Moses gave specific instructions regarding the application of the oil of anointing. The instructions, for anointing, in Leviticus 14 were given in explicit detail two times in the same chapter signifying its importance for healing. We have tested the instructions, affirming that the ‘Passover Lamb Slain’ was the Lamb of God that takes away the sin of the world. We then proceeded to anoint with either olive oil or essential oils of herbs which were used by the priest in anointing (Exodus 30:22-25). The anointing procedure is ancient knowledge imparted to mankind and has been ignored or altered. We found that this pattern of anointing has electrical generating qualities. When one wants to be well, this is the very best anointing to do. The prayers of atonement upon the person that is ill and presents themselves before the ‘priest’ in the Holy Scripture were for their health benefit. We have found that having prayer in the fashion of the Holy Scriptures to ‘Bless the Lord God Almighty, *Baruch HaShem Adonai*’ first in everything and then again with thanksgiving and praise at the end of every procedure, that the results were far superior. One case of profound scoliosis deviating approximately 2 centimeters and with a sharp lumbar curvature completely came into alignment (xray confirmed) using this principle, dealing with the emotions, and anointing with the essential oils.

Our first outside laboratory testing of our research was using a vital force measurement of the body electric. We tested clothing, the partaking of the Messiah’s Meal, the anointing according to Levitical law instructions, the recitation of the *Priesthood* blessing and the ‘Messiah’s Prayer,’ and finally the Ten Commandments,’ of Torah. These activities brought vital force number values from the AgEnviron Machine to a higher level than the technician had ever witnessed for any testing before. We tested at this time also what poisonous substances like coffee, sugar artificial sweeteners and also chocolate do to the body. The numbers plummeted immediately to zero vital force with these items. To regenerate and reboost the numbers to the previous vital force, we repeated the remedies of the Holy Scriptures above and it was restored immediately. The technician certified this testing and as well, this was witnessed by a group of observers. Being at the frequency of ‘clean’ certainly is a remedy very simple and with world wide applications. We excitedly started testing everything on hand and knew this was going to be a great research project.

Until our study and research, it was not known to us that chocolate comes under the classification of an ‘unclean’ food. Not only does it contain harmful chemicals such as methylxanthines, aflatoxins, tannins, oxalic acid, and caffeine, but processing

regulations allow for levels of contamination. This means in their words that 120 insect parts, rodent hairs, and a significant 5 mg of rodent feces is allowed to be present in a cup of chocolate. Clearly this shows that chocolate is *'unclean'* not just because of the excrement of rodents. The laws of Moses describing the insects are 'defiling' and make one 'unclean' (Leviticus 11:43). Much to our honest disappointment, our preliminary testing has failed to find a single sample of chocolate in any category that passes the 'clean' testing.

Instructions in ancient wisdom werewritten teaching that even *'touch'* (Leviticus 11:8) of these 'unclean' things was devastating to the living electrical field of mankind. The non-kosher meats of 'clean animal category' are those that are with blood and fat (Leviticus 2:17) remaining in the flesh and thus defiling or causing loss of vital power. The unclean meats of animals or sea life (shell fish) that were listed as 'abomable' and defiling are listed in species specific descriptions in Leviticus 11. These animals are the scavengers of the world and created just to clean up waste and garbage either on land or deep within the sea. It is known that shrimp is the waste collector of the sea but most people are unaware that this is devastating to their vital force or electrical field. Those that consume pork, shrimp or any of the items listed as 'unclean' can be spotted in the blood tests using Microscope analysis. At one medical conference, it was shared professionally that the discovery of those individuals consuming any of these 'unclean' meats would have what we term 'false positives.' Specifically that for 24 hours the individual's blood is HIV positive and that accordingly, the marker tests for cancer are elevated. Obviously God's commands or man's traditions are at conflict here. Giving food to anyone to eat that is unfit for consumption is wrong because it destroys the beautiful miracle of the electrical power generated for all tissues. We intend "To make a difference between the unclean and the clean, and between the beast that may be eaten and the beast that may not be eaten."- Leviticus 11:47.

Preliminary testing has shown that the vitality of the body increases and the improved body response can be shown with special photography as increased light energy is being emitted. We intend to show in our photographic, biofeedback, synchrometer, oscilloscope and radionics electrical field measuring devices, a predictable pattern following the health instructions of the Holy Scriptures. We will demonstrate that literally when someone is obedient to these simple instructions and believing, there is significant electrical charge and powerful light emanating from the body. We will attempt to measure the wattage, the DC current, the vital force, and frequency in kHz variances. We intend to present naturopathic and integrative protocols from our preliminary predictable and consistent findings for the entire world.

The world is literally *'dying'* from ignorance in regards to the *'clean'* and 'unclean' laws of nature. When there is disobedience to Natural Law, darkness and disease settles in to the tissues. Where there is acknowledgement of the departure from Natural Law and the Laws of God, bringing repentance, there is hope. Many successful clinics around the world offer modalities for healing utilizing herbal remedies, water therapy, and massage, testing of pH rates, serving organic and wholesome foods. Many people have received great help from these places. However the majority of these facilities do not offer hope to those that are stricken with the *'incurables'* of any of

mankind's diseases or ailments. God's word has written down specific instructions to deal with this specific group. Our experience within the last sixteen months of pilot study, the 'Law of the Incurables' when fully implemented predictably will have tremendous success.

Among the subjects tested and the effects upon the human body, will be clean and unclean foods, family purity laws, holiday observance, and fabrics and clothing. In addition research will include other subjects affecting the body like words, colors and music. We intend to document exactly what happens when the Holy Scripture instructions are followed in religious traditions and customs of observant people groups. The practical application of water purification pool (*Mikvah*), the wearing of prayer shawls (*tallit*), we have already tested that the human body demonstrates a measurable positive difference. We also intend to compare these with other spiritual faith groups.
